Dear Chris,

Writing Robert is a futility: he never answers.

So, please be his reminder.

I've heard that he has the entire Pittsburgh conference, which I was not able to attend, on VCR. I'd like very much to see it.

If he has an extra I can keep, that would be great because I'd like to deposit it with all else at Hood College.

If he can only lend me one, that also would be fine and I'd like that.

We are, for us, OK. Hope all you are well.

It was a shock when Mary Ferrell phoned me last week to tell me of Sylvia's death. Jerry phoned later to tell me, too.

I'd heard some time ago that she wasn't well but then I heard that she was OK. I think from Jerry a couple of months ago.

Oh, yes. A Philadelphia paper reported that Robert had some new photographic evidence or perhaps something new about what we did know. If he has any still of this on any explanation he prepared I'd like to be able to see it. I presume it is taped but it is easier and clearer for me to examine prints.

Thanks and best to you all.

Harold
